Astro-Imaging Projects for Amateur Astronomers | SpringerLink

Astro-imaging projects for amateur astronomers : a maker's guide. [Jim Chung] -- This is the must-have guide for all amateur astronomers who double as makers, doers, tinkerers, problem-solvers, and inventors.

Astro-imaging projects for amateur astronomers : a maker's ...

Amateur astronomers do cutting-edge science, too, sometimes partnering with professional astronomers in pro-am collaborations. Thanks to their ability to move and observe when and where they choose, amateurs are also often better at tracking asteroids or hunting for new supernovae than many pros. Amateurs are also branching into spectroscopy, splitting starlight into its constituent wavelengths to study the composition of stars and other celestial objects.

Projects for Amateur Astronomers - Sky & Telescope

As amateur astronomers ourselves, we believe that we can design better products for other amateur astronomers. Our main profile is the design and manufacturing of high speed astronomy cameras, mirrors, telescopes and other accessories for astronomy imaging and observing.
